

3 Jäg

custom jewelry design

3 Jäg Design is hand fabricated jewelry by goldsmith Betty Jäger.

Born and raised on the shores of misty Puget Sound, Betty's current line of hand made jewelry finds inspiration in the interesting and organic textures of her past. Reflections of the simple curve of a wave, the bark on evergreen trees can be found in her organically crafted jewelry. Ms Jäger's simplistic shapes with complex textures create an interesting balance in Sterling Silver, 18 karat, 22 karat and 24 karat gold jewelry. The strength of a hand fabricated piece of jewelry robustly highlighted with the softness of hammered texture and smooth satin finish. These pieces exude the consistency of natural elements, imitating the deep texture and bold, voluminous forms, and finally relayed onto metal.
